**Notes on government statistics of education:** for 1947-60 statistics of education were published as part II of the Ministry of Education's annual reports, which are digitally available through UK Parliamentary Papers online. For 1961-65 *Statistics of Education* became a separate publication in one volume. From 1965 onwards *Statistics of Education* was separated into six volumes (vol 1: Schools; vol 2: School leavers GCE and CSE; vol 3: Further education; vol 4: Teachers; vol 5: Finance and awards; vol 6: Universities), not available through UK Parliamentary Papers online but available in the BL, UL etc. The way statistics were recorded and presented changed over the period since the 1960s so that collecting consistent information is not always possible. In the early 1990s the process of collecting government statistics on education was privatised
